

Name _____ Class _____ Date _____

1 Read the definitions (1–6) and write the words.

- 1 animals that exist in low numbers: endangered species
- 2 when a river drops down from high to low: waterfall
- 3 things that live in the sea: marine life
- 4 a dense area of tropical trees: rainforest
- 5 animals in their natural habitat: wildlife
- 6 a big mass of ice that floats in the sea: iceberg

LEARN TO LEARN

- 2 Use the *Look, cover, remember* technique. Look at the words in Exercise 1 for one minute. Then without looking, write down the words you can remember and their definitions. Compare with a partner. Who can remember the most?

Students' own answers

3 Complete the words in the poster.

**JOIN THE GREEN GANG!
SAVE THE PLANET!**

Stop the ¹icebergs from melting!

Protect the ²rainforest!

Clean up the ³coast!
Say no to ⁴pollution!

Stop ⁵climate change!

4 Complete the words in the text.

When we think about the health of our lovely blue ¹planet, it often seems like everything is bad news. But this isn't always true. There are many projects to protect the natural ²environment. For example, some zoos have programs to increase the population of ³endangered species. In some countries, renewable energy like ⁴solar power provides all the country's needs. New ways of recycling ⁵waste are becoming the norm these days. Colombia's Amazon ⁶rainforest has legal rights, just like a human, to try and keep it safe. Where deforestation has caused flooded ⁷valleys, people are replanting trees. And many people work hard to protect the ⁸coast from pollution by cleaning up beaches.

5 Look at the photos. Complete the sentences about how you would help to prevent this from happening. (Possible answers)

- 1 To stop deforestation, I would reduce the use of tropical wood for furniture.
- 2 To prevent water pollution from getting worse, I would make people pay fines for dropping garbage.
- 3 I would prevent air pollution by making factories use renewable energy.
- 4 I would protect marine life by not allowing ships to pollute the sea.
